

DINESH VANKAM

Anantapur, Andhra Pradesh, 515004
+91-7981781303 | dineshvankam4@gmail.com | [Github](#) | [LinkedIn](#)

Objective

Motivated Computer Science graduate with strong foundations in Java, Spring Boot, React.js, and REST APIs. Passionate about building scalable cloud-based products and contributing to innovative CRM solutions. Seeking a software engineering role to apply full-stack expertise, problem-solving skills, and a continuous learning mindset in a product-driven environment.

Education

Srinivasa Ramanujan Institute of Technology <i>Bachelor of Technology in CSE</i>	2022 – 2026 CGPA : 8.5
Sastra Junior College <i>MPC-Board of Intermediate Education (AP)</i>	2020 – 2022 Percentage : 81.0
Carmel Jyothi English Medium School <i>Secondary(X)-Board of Secondary Education (AP)</i>	2019 – 2020 CGPA : 9.5

Projects

Full stack Expense Tracker Java, Spring Boot, React.js, MySQL, REST APIs, Maven, Git, Postman – Developed a full-stack expense tracking application with user authentication, expense management, and budget tracking features. – Built RESTful APIs and integrated React frontend with Spring Boot backend for seamless transaction management. Deployed on Render with Cloud-hosted MySQL database and wrote unit tests using JUNIT 5 and Mockito.	Jan 2026 – Mar 2026
Employee Management System Java, Spring Boot, React.js, MySQL, REST APIs, Maven, Postman, Git – Developed a full-stack employee management application supporting employee record creation, update, deletion, and search functionalities. – Designed RESTful APIs and integrated React frontend with Spring Boot backend for efficient employee data management.	Oct 2025 – Dec 2025
Appointment Booking Application Java, Spring Boot, Spring Data JPA, Hibernate, MySQL, REST APIs, Swagger, Maven – Developed a doctor appointment booking system enabling patients to schedule, update, and cancel appointments online. – Implemented authentication, appointment management, and API documentation to ensure secure and efficient operations.	July 2025 – Sep 2025

Technical Skills

Programming Languages : Java, SQL, JavaScript
Frameworks & Technologies: Spring Boot, Spring Data JPA, Hibernate, REST APIs, React.js
Databases: MySQL, MongoDB
Tools & Platforms: Git, GitHub, Jira, Confluence, Postman, Swagger, JUnit, Mockito
Core Computer Science: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks
Development Practices: Agile Methodology, SDLC, CI/CD

Internship

Software Engineering Virtual Internship – Completed a 10-week virtual internship focused on Java Full Stack Development, gaining hands-on experience in backend and frontend technologies. – Developed practical skills in Java, Spring Boot, REST APIs, databases, and full-stack application development following industry best practices.	July 2024 – Sep 2024
--	-----------------------------

Certifications

SAP Certified Associate – Back-End Developer (ABAP Cloud)	Dec 2025 – Dec 2026
Salesforce Developer – Agentblazer Champion Program	May 2025 – Jul 2026

Achievements

- Finalist in Lumen Quest 2026, a national-level hackathon organized by Lumen, recognized for developing innovative solutions and collaborating effectively in a competitive team environment.
- Solved 250+ coding problems on LeetCode, strengthening proficiency in Data Structures, Algorithms, and optimized problem-solving techniques.
